a glass of wine.

## Our Story

Everyone has their own version of heaven. El Cielo is ours. After our first visit to this region we fell in love with its climate, people, landscapes, but most of all: the high quality of wines grown here. So, we set out to create an extraordinary place that offered everything we wanted: a vineyard, a winery, a restaurant, and a boutique hotel. We made our dream a reality in Valle de Guadalupe and now hope to share our slice of paradise with you.

## Winery

Located in the heart of the Wine Route in Valle de Guadalupe, Baja California, we are proud to produce award-winning wines led by the talented and visionary winemaker Jesús Rivera. Our carefully crafted wines use different concepts and varieties to create new blends. Ranging from light to full-bodied wines with a strong character, our four lines of wine – Astros, Astrónomos, Constelaciones and Estrellas (The Reserved Collection) – are designed to surprise the palates of both novice and expert wine-enthusiasts. Enjoy an intimate tasting experience in our underground Wine Cellar and indulge your palette with creative degustation menus paired with our wines.

Savor. Stay.
